

## **Tripura Police**

There have been several reports in the print/electronic media as well as in social media that kidney of the dead body of a 11- year old boy was found missing. The Post Mortem report conducted by a team of doctors has confirmed that kidney and liver of the boy has been found in the body.

Please do not indulge in rumour mongering and circulating fake news and images with a view to spread panic in the society. Legal action will be taken against persons found indulging in the same. Also do not forward, like or share unverified news in facebook, whatsapp etc. Please dial 100 or contact local Police Station for authentic information on any crime/ incident.
